SUMMARY

Data Scientist and Machine Learning Engineer with hands-on experience in data analysis, predictive modeling, and intelligent system development. Skilled in Python, SQL, and machine learning frameworks. Experienced in classification models, customer segmentation, and AI-powered solutions.

EDUCATION

Sphinx University, Bachelor of Computer Science 09/2023 – 06/2027

SKILLS

Programming Languages (Python, R, SQL) | **Machine Learning** (Scikit-learn, Transformers) | **Data Analysis** (Pandas, NumPy, Data Preprocessing) | **Data Visualization** (Matplotlib, Seaborn) | **Math & Statistics** (Probability, Linear Algebra, Statistics) | **Tools & Platforms** (Git, GitHub, Google Colab, Jupyter Notebook)

LANGUAGES

Arabic (Native) | **English** (Intermediate)

TRAINING / COURSES

Database, Information Technology Institute (ITI) 07/2024 – 09/2024

Machine Learning Training, National Telecommunication Institute (NTI) 04/2024 – 06/2024

Python Developer, Sprints 06/2023 – 09/2023

PROJECTS

Breast Cancer Classification using Machine Learning

- Developed a machine learning model using Python and Scikit-learn with preprocessing and feature selection.
- Achieved accurate classification results using supervised learning algorithms.

Customer Segmentation

- Applied clustering algorithms to analyze customer behavior; visualized insights for decision-making.
- Improved customer group understanding using unsupervised learning methods.

AI Store Chatbot

Built an AI-powered chatbot using NLP concepts to handle store-related inquiries intelligently.
